

POSTER PRESENTATIONS

Posters will be exhibited during the entire conference, but time will be allotted in the conference program so that authors can present and discuss their work with participants. It is every author's responsibility to print out and set up their posters.

Poster presentations should:

- have a maximum size of 1.3m by 1m approximately.
- have a brief, informative title.
- include the name of the conference and the corresponding strand.
- use a large font for easy reading (24 point or larger).
- have a well-organised layout, with a clear sequence for the reader to follow.
- use bullet points to present the main points of the research study, rather than complete paragraphs.
- include visually appealing graphs, figures and tables where possible.
